Come and be creative in one of the Queen of Peace bands!  
Enrolments are now being taken for the 2014 band program.

Learning a musical instrument has many benefits that feed into a child's education. These include: self confidence, literacy and numeracy skills, creativity, co-ordination, co-operation, self-expression and a greater enjoyment from listening to music.

### **BAND (GRADES ONE TO SIX)**

Over the course of the year, students develop skills on keyboard, guitar, bass and drums. Group work facilitates the rapid development of listening skills that are essential to the art of making music.

The music is composed in class, allowing for individual parts to be adapted to suit each student's skill level.

There will be 30 lessons of 40 minutes duration over the course of the year.

The average band size is six students.

### **THE TEACHERS**

BackBeat teachers are all professional musicians who continue to perform on a regular basis in Melbourne and around Australia. They bring this current knowledge and genuine passion for music with them to the classroom.

Bios can be found at [www.bbbp.com.au](http://www.bbbp.com.au)
